

NT-X5

Live Tracking Devices

The NT-X5 Series >

At US Fleet Tracking, customer service is our top priority. If you have any questions or encounter any difficulties with this system, please contact our technical support at (405) 726-9900. They are available Monday through Friday 7 a.m. to 7 p.m. CST and Saturday 9 a.m. to 4 p.m. CST.

If you have any questions about the web interface, control panel, or basics of GPS tracking and our system, please sign up for the live training sessions every other Friday by clicking the link on our website. Our staff will help you understand the ins and outs of GPS tracking and the US Fleet Tracking web interface with the many features it has to offer.

Thank you for choosing the NT-X5 Series personal tracking device from US Fleet Tracking.

Messaging

THANK YOU for choosing one of our NT-X5 Series personal tracking devices!

The NT-X5 Series devices integrate with certain Garmin series personal navigation devices. They allow for unlimited messaging to and from the devices via any web-enabled computer.

This integration allows users to remotely set destinations for employees in the field from our web-based system and offers unparalleled dispatch and communications functionality.

To get started with your Garmin and US Fleet Tracking NT-X5 device, please follow these steps:

Step 1 > Check Compatibility

US Fleet Tracking supported Garmin products:

- Dezl Series
- Nuvi 22xx - 24xx Series
- Nuvi 12xx - 14xx Series
- Nuvi 2x5 Series
- Nuvi 465

Supported FMI versions:

- Version 2.1 Fleet Management Interface
- Version 2.6 Fleet Management Interface
- Version 2.7 Fleet Management Interface

Step 2 > Update your Garmin

Your Garmin unit comes with preloaded software that will need to be updated to function properly with our messaging and routing features. To download the most recent software version, visit: www.garmin.com/products/webupdater/howtoinstall.jsp and find the WebUpdater installer.

Simply download the WebUpdater from Garmin to your desktop. Use the supplied USB cable, provided by Garmin, to install the latest software version. Connect your Garmin device to your PC and run WebUpdater.

Please note:

The Dezl Series devices can only be updated using the micro SD cable in the port located on the bottom of the device.
